

TF886: TERRAFIRMA STAINLESS STEEL LH REAR WHEEL ARCH SIDE LOCKER
DEFENDER 110 – 2007 ONWARDS
FITTING INSTRUCTIONS

Due to the hand built qualities of the Defender it is not possible to tell you exactly where to cut the hole as the reference points may be different from vehicle to vehicle.

Please use the below image as to a guideline for placement of the rear locker.

The key to fitting the rear locker is masking tape, a ruler, tape measure and a pen. You can accurately measure out where you want to cut the vehicle and check the box and cut lines for a tight fit and for square.

Please note that any dimensions within the images are approximate only.

Each box to be fitted should be measured individually so these dimensions can be altered. Also please note that all vehicles differ slightly and all cut lines should be thoroughly checked and re checked before any final cuts and alterations are made to any vehicle.

Always check there is space behind the cutting surface to allow the box to fit and it doesn't foul any part of the vehicle.

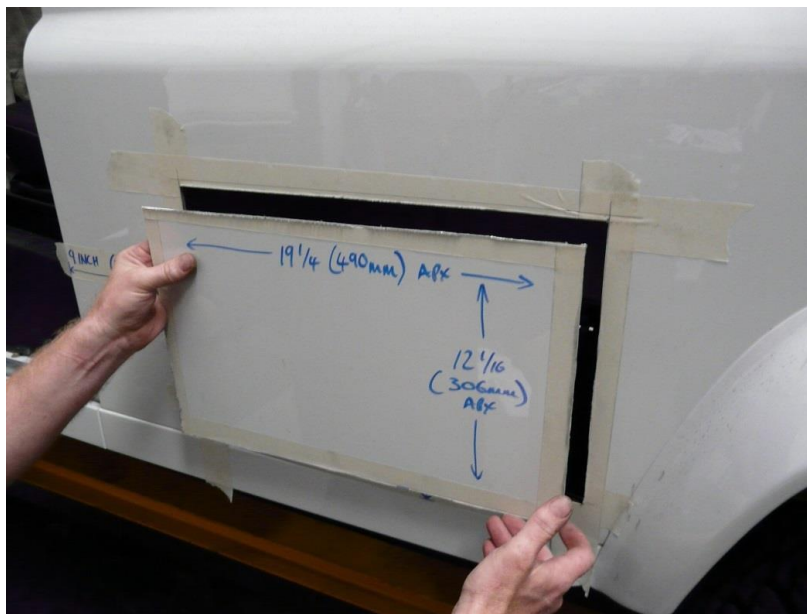

WARRANTY & DISCLAIMER - Terrafirma products are warranted free from defects in materials and workmanship for a period of 12 months from the date of retail invoice. Terrafirma does not warrant that the products manufactured or marketed by it comply with the laws of the country where those goods are purchased or used. It is the sole responsibility of the purchaser to ascertain whether products being purchased, or the fitting of those products to any other object, comply with local laws. This warranty covers structural defect and workmanship but does not cover finishes, labour charges for removal or refitting, freight costs, accident damage, misuse or abuse, damage due to incorrect or improper fitment or application, modified product, faulty design or consequential damage of any kind. Damage or defects caused by collision, alteration, improper installation, road hazards, adverse conditions or usage for any other purpose other than normal private usage are not covered by this warranty. Terrafirma shall not be liable for any other claim relating to the use of the product and any indirect special or consequential damage or injury to any person, company or other entity. All claims must be accompanied by the original retail invoice and should be submitted to the supplying Allmakes 4x4/Terrafirma distributor. This warranty covers only the replacement of the product or part concerned. The decision remains solely at the discretion of Allmakes Ltd. The information contained in this catalogue was correct at the time of going to press. Allmakes/Terrafirma and its associated companies reserve the right to alter the range and any product specifications without notice. Always consult your Allmakes/Terrafirma distributor for the latest product information and specifications. The Terrafirma range of products is constantly being evaluated for enhancement and improvement to make sure the level of quality and performance is as expected.

TF886

Def 110

Measure, measure again then measure again before cutting!

Once you have measured and checked, measured and checked again and you are happy an ultra-thin metal cutting disc is recommended, but take extra care at the corners and be careful of the heat generated.

Once the area has been prepared for the locker then it should be fixed in place using the fastenings provided.

From new, the door may be hard to close, this is partially due to the thickness of the rubber seal used to prevent water and dust ingress into the locker itself. If closing the door securely is ever an issue, using an adjustable spanner or similar placed over the end of the internal tab that the latch catches against, very gently prise the tab upwards by no more than 1mm to enable easier closing.

When closing the door, always do so by lifting the latch before closing the door, only releasing the latch once the door is securely closed. Slamming or forcing the door closed without first lifting the latch will only bend the internal tab downwards.

Final note - Measure, measure again then measure again before cutting!
